

All Together CUMBRIA

## Recruitment brokerage desk

# Supporting businesses operating in Cumbria to source locally skilled people

Our **recruitment brokerage desk** helps businesses to find the right person for their organisation through our existing trading relationships and service level agreements with our recruitment partners.

Our partners have a wealth of industry and geographical knowledge and experience enabling the understanding of clients' needs and skill requirements, as well as how to provide value added solutions.

Each vacancy filled through our recruitment brokerage desk generates a retrospective rebate payment from our recruitment partners profit, which is then re-invested through our social impact strategy.

### Our agency partners:

### Benefits of using the All Together Cumbria's recruitment brokerage desk:

- Access to extensive candidate databases and talent networks across multiple sectors
- An increased availability of skilled and competent persons to support work programmes and activities
- Support for your organisations resourcing challenges by helping to identify, attract, recruit, redeploy, retrain, up-skill and re-skill local people
- Increased social value when tendering for business. The governments 'Social Value Act' requires social and economic impacts to drive more value through every pound spent.
- Enhances your social impact strategy and measures with regular reports provided, detailing financial value generated through using All Together Cumbria and how these funds have been invested
- Opportunity to directly influence how and where profits are invested.

All Together Cumbria is a social enterprise delivering real change in Cumbria.

The funds generated through All Together Cumbria via the collaborative partnerships are reinvested to enable greater employment opportunities through defined strategies, skills awareness, development and training.

Supported by industry, we provide effective and efficient management of current and future employment opportunities and challenges within the area via our industry skills brokerage and dedicated recruitment desk.

We are passionate about making visible social change. Through our unique partnerships we work together to determine the needs of individuals, our community and industry through data driven needs assessment. We identify and implement solutions that develop a more sustainable workforce of the future.
