## Season's Greetings!

Welcome back to Dear Neighbour, our newsletter that keeps you updated on West Suffolk Operational Hub, Bury St Edmunds.

December has seen another month of heightened activity across the project!

Groundworks are still the main focus of the project currently with foul and surface water drainage across the site, foundation preparation for steelwork and commencement of the fleet car-park bay concrete works.

Steelwork to the waste transfer station & baling building is complete in readiness for the cladding works. The landscape store steelwork will be commenced in 2019.

The roof is now on the depot and workshop building which enables us to commence the external side walls

Once this is complete the building will be virtually watertight and we can then commence the internal works. These works will include internal wall construction & first fix mechanical and electrical works.

We are planning on holding our next coffee morning on Thursday 24<sup>th</sup> January 2019 @ 10.00am. It's another opportunity for you to receive an update on the project and take a peak from our new viewing platform.

As with these events, spaces will be limited so please email: [danny.branson@morgansindall.com](mailto:danny.branson@morgansindall.com) if you wish to reserve a place.

Finally, we would like to wish you a Merry Christmas and a prosperous start to the New Year! We will see you in 2019!

## Delivering new waste facilities for West Suffolk

Delivered on behalf of Suffolk County Council and the West Suffolk councils, the project involves the construction of a new waste hub facility which will combine services currently provided across four separate sites onto a single site at Hollow Road Farm in Fornham St Martin.

Everyone has the right to be

**100% Safe**

### On Site Defibrillator

We have a defibrillator located on site - for use by the public in the event of an emergency.
